

Online Symposium

The 4th Symposium for The Core Research Cluster for Materials Science and the 3rd Symposium on International Joint Graduate Program in Materials Science

“Create New Value of Materials Science through Broad Collaboration”

Date November **16** Mon - **18** Wed, 2020

Outline

Tohoku University was named one of the first three Designated National Universities in Japan on June 30, 2017 by the Japanese Government. As a Designated National University, we initiated the “Core Research Clusters” to strengthen four research fields; materials science, spintronics, next-generation medical care and disaster science. Also, International Joint Graduate Program in Materials Science aims to cultivate internationally capable and highly creative professionals in the materials science field. We have presented distinguished achievements so far. Therefore, we would like to hold, continuing from past years, the symposium on the research field of Materials Science to show our research results and discuss future prospects.

Plenary Speakers

Byeong-Joo Lee

Pohang University of Science and
Technology

Dierk Raabe

Max-Planck-Institut für
Eisenforschung GmbH

Hans-Joachim Freund

Fritz-Haber-Institut der
Max-Planck-Gesellschaft
